

## **The Wind Whistles - Animals are People too (aaahh.006)**

**VÖ: 21.05.09**

Some bands can't handle the road. It can all get too much and airports become stuff they see in nightmares. Not Tom and Liza aka 'The Wind Whistles', they love it! They collect boarding cards like other people collect stamps! So, instantly after putting their feet back onto home-turf from their tour in 2008, they grabbed guitar and bass and gathered with friends in the studio to capture ideas that came into their heads fresh from a summer in Europe and luckily for all of us...they hit the record button!

After "Window Sills", their brilliant 2008 debut, we are very proud to release the brand new second full-length album from the Canadian folk duo, entitled: "Animals are People too".

Being able to offer you this album is very special to us, as we not only love the band's inspired work but also because we've had the privilege of becoming friends with these two wonderful people who really do everything possible to ensure their music reaches ears all over the world.

As usual, we publish the album under a creative common license, which enables all listeners to get it for free on our label-homepage. However, musicians have to eat as well, so Tom and Liza had a thrilling idea to treat all the kind people who donate money for their hard work. As a parallel and exclusive secret release, the Wind Whistles recorded a second album, which is the must-hear link between 'Window Sills' and 'Animals are People too'. Anyone who donates 8 Euros or more for either of the albums will be enlightened by this brilliant recording which completes the picture, be curious people, it's so worth it!

Also, we are delighted to let you know that Tom and Liza return to Europe this summer and will play in several lovely venues in some of the biggest cities in Germany and Europe. We can't wait!

Check their tour dates! They can be found along with all relevant information and links for downloads and donations at:
